

ZAPATA(60X60) - H35

PILARES (15X30)

The technical drawing illustrates the dimensions and reinforcement for a 15x30 column. The front view (left) shows a rectangular cross-section with a width of 15 and a height of 30. It features four corner reinforcement bars, each with a diameter of 12mm, and four diagonal stirrups. The side view (right) shows the column's length of 27, with a width of 12 and a height of 27. It includes a top reinforcement bar with a diameter of 6mm and a length of 0.05, and a side reinforcement bar with a diameter of 6mm and a length of 0.05. The reinforcement is specified as $\phi 6 - C20$ with a spacing of 0.89cms.
