As a result of the new ICEA / NEMA application standards being issued, the older, more-familiar materials-based ICEA / NEMA standards were being withdrawn. This was necessary to eliminate duplication and because the materials-based standards are no longer being maintained. The withdrawn ICEA / NEMA standards are :

ICEA S-66-524 / NEMA WC7
Cross-Linked-Thermosetting-Polyethylene Insulated Wire and Cables

ICEA S-61-402 / NEMA WC5
Thermoplastic-Insulated Wire and Cable

ICEA S-68-516 / NEMA WC8
Ethylene-Propylene-Rubber Insulated Wire and Cable

ICEA S-19-81 / NEMA WC3
Rubber-Insulated Wire and Cable

The new ICEA / NEMA published standards are :

ANSI/ICEA S-95-658 / NEMA WC70
Nonshielded 0-2kV Cables

ANSI/ICEA S-96-659 / NEMA WC71
Nonshielded 2001-5kV Cables

ANSI/ICEA S-93-639 / NEMA WC74
Shielded Power Cable 5-46 kV
